

COMPACT AND EASY TO TRANSPORT

The device is light, fits even in the booth of a small car

Our cleaning protocol

- Ozonize the villa
- Cleaning ladies enter to clean
- Ozonize used vehicles

FIRST ALL THE COMMUN AREAS FROM OUTSIDE

First all the main areas are ozonized. Because of its size, the machine can easily be put on stairs and in window frames

ALL THE ROOMS AND AREAS INSIDE

After the open areas have been ozonized, all the separate rooms will be ozonized.

Ozonizing works to:

- Eliminate unwanted odors
- Minimize the formation of mold
- Reduces growth of bacteria and viruses

ENTER CLEANING STAFF

After the whole villa has been ozonized the cleaning staff enters and the company vehicles are being ozonized also.
